Contributions. Contributions are invited for future issues of *University Computing*. Articles should be typewritten (double-spaced) on one side of A4 paper with generous margins. The original and three copies should be submitted. Figure legends and tables should be prepared on separate sheets; all figures and tables should be referred to in the text. Articles should be approximately 3000 words in length and should be accompanied by an abstract of not more than 200 words. They should be sent to the Editor. Reports should be approximately 1500 words in length. Items for the news section are welcomed and should be sent to the compiler of the appropriate section or to the News Editor. Other contributions should be sent to the Editor.

The Editor is pleased to receive material at any time but the following dates indicate the times of year at which copy is being prepared for a particular issue. This is particularly important for notices and news items; articles etc. are considered for publication giving due regard to date of receipt, immediate relevance and balance of make-up.
